

The Worcester is a delightful home. It is designed to please the entire family by accommodating their many different activities, formal and informal, in such a way that one does not interfere with another.

The foyer is large and bright, a graceful greeting place for family and guests alike; from there you may usher your guests into the spacious living room for a setting that is at once inviting. A separate dining room adds to your entertaining ease and overlooks the rear garden—the perfect setting for a formal dinner party or family celebration. The beamed ceiling makes the fully equipped kitchen and breakfast alcove as lovely as it is efficient—and the famous Kettler walk-in pantry is but one part of your excellent storage facilities.

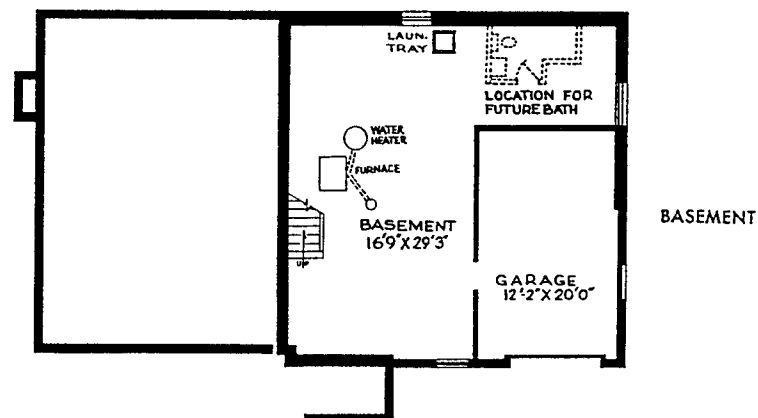

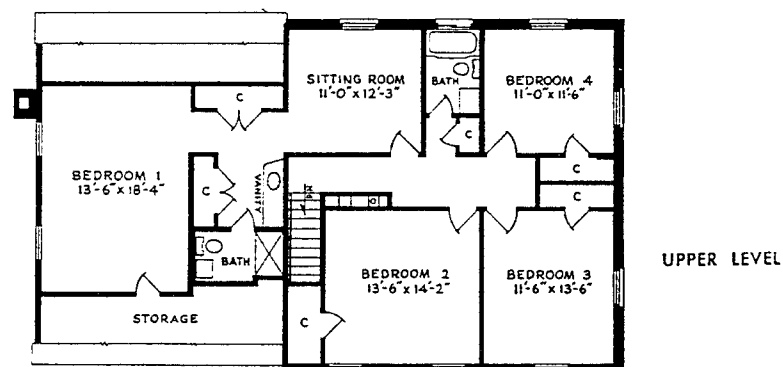

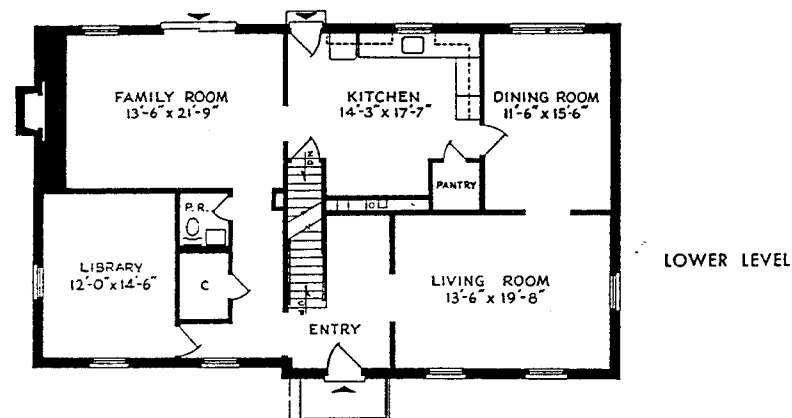

One entire wall of the family room is brick and features a raised hearth fireplace in the traditional manner of the old country estate. Sliding glass doors lead to the garden, allowing you to extend your living and entertaining space to include the outdoors. A powder room on the lower level is handy for guests and family. Notice the walk-in coat and guest closet. For the busy family, the secluded panelled library will be welcomed for study, an office for the home, reading, relaxing—or perhaps a moment of quiet thought.

The bright, white walled basement, is convenient from the kitchen and will serve your laundry, garage, hobby, and bulk storage needs.

Privacy, seclusion and distinction are the characteristics of the upper level. Four generous bedrooms, including an outstanding owners' suite, provide individual privacy for each member of the family. The family bath is centrally located near the three children's bedrooms, and there is a convenient hall laundry chute to assist you in your daily living. Entering the owners' suite, you first come upon a private sitting room reserved exclusively for the adults of the family. Your own compartmentalized bath and dressing room adjoin both this sitting room and the bedroom, providing further luxurious comfort. And last of all, your owner's bedroom enjoys complete privacy and seclusion. Generous closets, a lighted cubby hole and a pulldown stairway to the attic will fulfill all of your storage needs.

Living in the Worcester House is an adventure in comfort and pleasure that the entire family will appreciate.
